

Chiropractor

The CONNECT team and CONNECT clinic are growing! In addition to increasing our facility by almost 1,000 square feet, we're looking to add another chiropractor to help us continue being the area's first choice for private therapy, no OHIP, WSIB or MVA.

You would be a part of a team that takes a holistic approach to private care where like-minded clinicians create an environment leading to patient success and excellent relationships with area physicians. As part of this holistic approach, chiropractors spend more 1:1 time with clients (at least 30 minutes per session) providing clients the dedicated and proactive care they deserve.

CONNECT empowers our community to take active control of their health and offers specialized group fitness, yoga and cycle classes. We are a leader in both the healthcare and fitness world by bringing the two together to change the way Grey Bruce manages our health.

In just three years, we've tripled the size of our team. We take time to mentor and coach each other. We go for regular retreats where we set both individual and corporate goals not to mention our monthly team case reviews. Our environment allows you to flourish in your field of work and find the work life balance you desire.

We provide clinicians full administrative support. From booking to laundry and everything in between. Our 3,500 (soon to be 4,400) square foot layout houses all the equipment and supplies you need so you can focus 100% on your client.

With a competitive fee split and the support to market and build your practice, we have your back. This fee split comes after a 6 month transitional period providing you time to build a caseload and settle into the area. So, if you're a registered chiropractor, and looking for a new opportunity, we want to hear from you.

To learn more about CONNECT and the Owen Sound area please visit our [Careers](#) page or contact us at admin@connectrehab.com. Thinking about relocating? We'd be happy to show you around.

What CONNECT offers

Personal & Professional Growth

Work/Life Balance

Transition to Practice Program

Holistic, Team Approach to Care
